Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1 and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Francis (US Patent No. 2,467,376).

Claims 1 and 5:

Francis teaches a shield (11) having a sidewall, a top and an inner cavity (figure 2), the sidewall having a bottom edge (14) the bottom edge configured to contact a mating surface and the top edge joined with the top (24), one or more cut openings (figure 2) evenly spaced, extending through the shield sidewall to the shield inner cavity, the one or more openings formed between the sidewall top and bottom edges and located a predetermined distance away from the bottom edge (figure 2), wherein the shield is configured to matingly receive the impeller shaft into the shield inner cavity and position the shaft to expose for grinding. The shield of Francis is inherently capable of performing the functions claimed.

Claim Rejections - 35 USC § 103

3. Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Francis.

Claim 6:

Art Unit: 3726

Francis discloses the structure above but does not teach the use of a nickel-based super-alloy. It would have been obvious to one of ordinary skill in the art at the time of invention to use a nickel-based super-alloy, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. *In re Leshin*, 125 USPQ 416. Furthermore, it appears that Francis would perform equally well if manufactured from a nickel-based super-alloy.

Allowable Subject Matter

4. Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claim 10 is allowed.
6. The reasons for allowance regarding these claims can be found in the previous office action dated 9/21/2006.

Response to Arguments

7. Applicant's arguments with respect to claims 1, 5 and 6 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Art Unit: 3726

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher M. Koehler whose telephone number is (571) 272-3560. The examiner can normally be reached on Mon.-Fri. 7:30A-4:00P.
